adamh@ocean.com.au**Barry Bros. to use Ocean Software's OpsPro™ for Operations Management Infrastructure**

Melbourne, February 23, 2009 – Barry Bros. have confirmed the purchase and implementation of Ocean Software's Operations Management Solution – OpsPro™. Leveraging Ocean's 15 years of experience managing the operations of some of the world's most respected military units, Barry Bros. will utilise OpsPro™ to "eliminate scheduling difficulties, improve internal communication and increase asset utilisation – the key to revenue development" said Stephen Pewtress – Barry Bros' Executive General Manager. This project will provide the critical infrastructure to support the difficult task of managing valuable resources including vehicles, equipment and personnel over a diverse geographic area. "OpsPro™ will allows us to create consistent processes across the organisation" said Stephen Pewtress, "we will also be able to retain knowledge within the company by using OpsPro™'s document management and data retention tools."

Operating since 1958, Barry Bros. is a leading industrial services provider to many of Australia's heavy and light industry experts and municipal authorities. "We are very pleased to add Barry Bros. to our growing list of world class organisations that have chosen to engage with Ocean" said Adam Hogan, Ocean's Director Sales & Marketing "we are looking forward to a long term partnership strengthening both organisations"

About Ocean Software

Ocean Software was established in 1993 as a wholly Australian owned and operated company. Ocean specializes in designing and supplying world-class solutions for Operations Management and Training. Originally focused on the complex needs of Air Forces around the world, Ocean then expanded its offerings to providing solutions for Coastguard and Maritime Surveillance. The latest stage in Ocean's evolution has been to leverage this expertise to provide private sector companies around the world with the best Operations Management Solution available. Ocean employs specialised staff, many of whom are experienced industry leaders and operations personnel, which provides the company with a wealth of experience in Operations Management processes.

Australian-based with a Melbourne head office, Ocean Software maintains an international presence with staff in the United Kingdom and Canada. For more information please visit www.ocean.com.au
