Qatar Aeronautical College to use Ocean Software's FlightPro™ for Operations Management Infrastructure

Melbourne, Dec 16th, 2008 – Qatar Aeronautical College (QAC) has successfully implemented Ocean Software's world leading Aviation Operations Management Solution – FlightPro™. QAC will leverage Ocean's 15 years experience in building solutions to manage the operations of some of the world's most respected military flying units and civilian flying operations. "Already we have seen improved efficiency, enhanced corporate governance and better asset utilisation", said Jeremy Nordan – QAC's Head of Training.

FlightPro™'s powerful enterprise-wide ERP capabilities including multi-site support provides QAC with the ability to manage local and satellite operations as well as support QAC's future growth plans. FlightPro™ consolidates all activities into one comprehensive solution managing all aspects of QAC's flying operations including flight scheduling, qualification tracking and course management. "We had strong business reasons behind the decision to implement FlightPro™", Jeremy Nordan said. "FlightPro™ will provide QAC the ability to respond quickly to the dynamic environment that is flight training; directly impacting the bottom line."

Founded in 1975, the Qatar Aeronautical College is the Arabian Gulf's leading provider of training to the aviation industry. "We are very pleased to add Qatar Aeronautical College to our growing list of world class organizations that have chosen to implement FlightPro™" said Andrew Morrice, CEO of Ocean Software. "We are looking forward to a long term partnership that will strengthen both our organizations"

About Ocean Software

Ocean Software was established in 1993 as a wholly Australian owned and operated company. Ocean specializes in designing and supplying world-class solutions for Operations Management and Training. Originally focused on the complex needs of Air Forces around the world, Ocean then moved on to providing solutions for Coastguard and Maritime Surveillance as well. The latest stage in Ocean's evolution has been to leverage this expertise to provide private sector companies around the world with the best Operations Management Solution available. Ocean employs specialized staff, many of whom are experienced industry leaders and operations personnel, which provides the company with a wealth of experience in Operations Management processes.

Australian-based with a Melbourne head office, Ocean Software maintains an international presence with offices in the United Kingdom and Canada. For more information please visit www.ocean.com.au.
